Installation Steps

Installation Fig.

Step 1: Before you start the installation, make sure that you have all the components listed above.

Step 2: Fix the left and right brackets to the vehicle as below picture.

Step 3 (for Ranger PX2 2015-2018): Install the 2 support brackets onto the cross member in front of the radiator. Fix the other side to the side nut-sets of the nudge bar.

INSTALLATION INSTRUCTIONS

Step 3 (for Ranger PX3 2018-2022): Take the two original bolts on the top of license plate and install it on the top brackets as below picture. Fix the other side to the nudge bar.

Step 4: Adjust the nudge bar correctly and lock the bolts tightly.

Step 5: Installation is finished.

NOTE

Any damage and losses caused by improper installation and application will void warranty.
